

Permanent Magnet Solutions
Dyneo[®]

A masterpiece
of energy savings

DYNEO[®], an innovative solution to propel your energy savings!

From 0.25 to 550kW, DYNEO[®] combines permanent magnet motor technology with electronic variable speed. DYNEO[®] attains unequalled efficiency levels over the whole speed range generating an extremely rapid return on investment. Due to its compactness, DYNEO[®] integrates easily into all systems having exceptional performance and the smallest size on the market.
